

Using Legacy Home Version of Math Facts (Big Brainz)

To use the program, you will need to both install it and set up the launcher.

Installation Instructions

If the program is already installed, skip to the launcher instructions

1. If not already downloaded/installed, download Installer.zip for your device:
 - a. Windows: <https://mathfacts-dev.imaginelearning.com/legacy/windows/Installer.zip>
 - b. Mac: <https://mathfacts-dev.imaginelearning.com/legacy/windows/Installer.zip>
2. Unzip Installer.zip to obtain the bigbrainz installer.
3. Run the bigbrainz installer and take note of the install directory if you change it.
4. Do not launch the application yet, or close the application if it is already launched.
5. Move on to the Launcher Instructions

Launcher Instructions

Start here if you don't need to install

1. If not already downloaded, download the new launcher from:
 - a. Windows: <https://mathfacts-dev.imaginelearning.com/legacy/windows/Launcher.zip>
 - b. Mac: <https://mathfacts-dev.imaginelearning.com/legacy/mac/MacLauncher.zip>
2. Unzip Launcher.zip to obtain the Launcher folder.
3. Locate the install directory for the BigBrainz application.
 - a. If the install directory was left as default, it will be in c:/ProgramData/BigBrainz.
 - b. If you can't locate C:/ProgramData, you may need to show hidden files and folders. See here: <https://support.microsoft.com/en-us/windows/view-hidden-files-and-folders-in-windows-10-97fbc472-c603-9d90-91d0-1166d1d9f4b5>
4. Replace the Launcher folder located in the install directory with the Launcher folder you unzipped earlier.
5. Launch the program using your existing shortcuts or the BigBrainz.exe application inside of the launcher folder.
